

TRINITY COUNTY *Public Health*

Greetings!

We have been very grateful over the past year to have partnered with the SnapNurse Team and make available Covid-19 vaccination and testing for Trinity County residents.

The SnapNurse Team's last day is June 30, 2022.

We wanted to make sure our community members have the opportunity to take advantage of this service prior to June 30. Trinity County Public Health Branch will continue to work with partners to ensure access to testing and vaccination into the future.

Please check the schedule on the Trinity County website:
